# פרק כ"א

In this פרק, Hashem is going to fulfill his word. אברהם and שרה are going to have a son. The anticipation of seeing the continuity of כלל ישראל is to be fulfilled with the birth of יצחק.

## פסוק א'

*The pace for 'א-ח' פסוקים is 2 פסוקים a day.*

### Topic:

Hashem remembers שרה.

### Skills:

When teaching new פסוקים it is crucial to continue to reinforce "breaking apart" as many words as possible.

- תחליות - לשרה, וזה'
- ו' ההפוך - ויעש
- זמן עבר - דבר, אמר, פקד, he (did)
- כאשר - Can be translated as "when/as". Here it is understood as "as".

### Lesson Pointers:

- "כל המבקש רחמים על חברו הוא נענה תחלה." (page 46) - סמיכות פרשיות
- כאשר אמר (page 46) - What did Hashem say? That שרה will become pregnant.  
When did Hashem say this? יז:יט
- כאשר דבר (page 46) - What did Hashem say? That שרה will give birth to a son.  
When did Hashem say this? טו:א (ברית בין הבתרים)

### Practical Application:

Hashem remembers and fulfills all that He says He will do. Similarly, when we say we will do something, we must keep our word.

וה' פקד - Emphasize the Greatness of Hashem. Only He remembers *everything*. (This can be mentioned in reference to ראש השנה and יום כפור.)

Ask the children if they can remember a specific fact. (For example: What time they woke up on Shabbos morning? What they had for supper on Tuesday night 3 weeks ago? What they wore on the first Sunday of the month of July? By asking these types of questions, they will begin to realize the Greatness of Hashem and we as בשר ודם (human being) are limited in our abilities.

**יסודי יהדות:**

וה' פקד שרה כאשר אמר - Hashem remembers everything and keeps his word. Whatever Hashem says is fulfilled.
